SmartFold Doors

Gives complete flexibility for your living space

Achieves A rating requirements

TRANSFORM YOUR LIVING SPACE, BRING YOUR HOME AND GARDEN TOGETHER

Combining the undeniable strength, durability and quality you would expect from the VEKA UK Group, SmartFold doors offer you complete flexibility in how you use your living space.

The VEKA UK Group have pioneered the design and manufacture of window and door systems for over 30 years. With a continual investment in the profile systems it is now one of the most technically advanced on the market. A 10 year guarantee on all products, gives the added confidence that once fitted VEKA products will last for many years. Your new SmartFold doors can be installed complete with windows from the same profile and colour choices.

Why choose SmartFold doors?

These innovative doors are a great choice where you need the freedom of how you use your living space. Simply open the main passage door, fold all the sashes to the side for a full opening or partially position the sashes for ventilation. You have complete control over how you use them for any occasion or season.

Excellent weather performance

Tested to BS6375 and achieving U-values as low as 1.0, you can be confident these doors will perform in all weathers.

Ease of operation

With an easy to operate system, each door sash can be moved individually anywhere along the concealed tracks. The sashes interlock together allowing for easy operation and manoeuvre with a neat, seamless and aesthetically pleasing finish.

Enhanced security

When closed the doors interlock creating a secure solid wall. Fitted with MACO locks and the Ultion Cylinder there are no compromises on security. Tested to meet the requirements of PAS24, a SmartFold door that you can rely upon to secure your home.

Design

- There is no limit to the number of sashes as they operate individually, leaving you to design the opening and solution that fits your home perfectly.
- Doesn't encroach on internal living space when opening and closing.
- Concealed bespoke hinges showing minimal hardware.
- Frames and sashes are fully reinforced, guaranteeing the structural integrity.
- Manufactured from the well known and loved M70 bevelled profile system.

Glazing

- An "A" energy rating can be achieved by upgrading to 40mm or 44mm Glazing. 28mm and 36mm triple glazing options are also available.

Fittings

We have a great range of hardware that will stand the test of time whilst completing the look of your doors. Available in white, bright chrome, satin chrome, bright bronze, graphite, black and antique black, anthracite grey, all supplied with a 10 year guarantee.

COLOUR CHOICES

Colours

With 29 colour options to choose from, your doors can be manufactured with one colour on the outside and a different colour on the inside to match your decor.

All VEKA profiles are available in a great range of foils and woodgrains as standard. Please note, colours shown are for guidance only and not a direct colour match.

ASSURE ENERGY RATINGS REGISTER EXPLAINED

The Assure Energy ratings scheme is used to give your windows a Windows Energy Rating (WER) in alignment with the “traffic light” system used in all domestic appliances.

Why choose a SmartFold door?
